DETAILED ACTION

Allowable Subject Matter

1. Claim 1 is allowed.

2. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claim, in light of the specification and the applicant's amendments filed May 22nd, 2008, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach all of the limitations of the independent claim in combination with the other elements presented.

The prior art of record teaches methods for generating data indicative of physiological parameters of an individual and to further derive analytical status data that includes contextual parameters (see Teller, abstract). The prior art further teaches monitoring a user in an environment including a controller that is adapted to create situation assessments and to plan corresponding executable responses based on the situation (see Miller, abstract).

However, as per claim 1, the prior art fails to teach a method for administering devices in a network, where a user metric vector is created that comprises a plurality of disparate user metrics that represent a dynamic change in a user's condition in response to an external stimulus, where the user is a person, where a metric space is created that comprises a plurality of metric ranges, where a determination is made if the

metric vector is outside of the metric space, and if so, identifying an action to alter the user's physical condition in response to the stimulus, where an allowed action list is used to identify the action or an alternative replacement action in case of disallowance.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Taylor whose telephone number is (571) 272-3889. The examiner can normally be reached on Monday-Friday, 8:00am to 5:30pm, with alternating Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
